Proposal to the AS Board of Directors for one-time funding of summer web design

This is a request to fund up to 50 hours per week of hourly employment for web design of the AS website. The purpose for the request is to meet the agreed upon completion date for the AS website of the beginning of fall quarter 2010. In conjunction with the Web Developer, employees hired to do this work will finalize basic design of all unfinished pages on the AS website and prepare them for launch.

Staff hired for these hours will be Level III "graphic artists" paid starting at \$8.85/hour, and funded to work from the beginning of summer quarter through September 22nd, 2010. The overlapping time with the PC's salaried Web Designer who begins September 7th will provide for any necessary transition issues.

Please consider appropriating up to \$6,000 for employment of up to 50 hours per week of web design from June 22nd through September 22, 2010.

Thank you,

Jeff Bates
