

Two Consent Items:

i. ASWWU Stances on Legislative Budget Proposals

Approve the following stances. The ASWWU:

- Supports faculty and the state should too
- Opposes the \$5.93 million reallocation towards the engineering and computer science enrollments
- Supports closing tax exemptions with revenue dedicated to higher education
- Supports fully funding financial aid

If a tuition increase is imposed by the legislature, then the ASWWU believes the money should be allocated to faculty salaries and not to other decision packages not funded by the legislature.

ii. ASWWU Stance on International Student Tuition Surcharge

- Oppose the 20% surcharge on international students because the ASWWU is opposed to increased tuition in principle.
