Background & Context

Refer to attached document

On May 22nd, 2014 the ASWWU Board passed a resolution put the ASWWU Student Senate on hiatus for the 2014-15 school year. After working with Eric Alexander and evaluating the previous role of the student senate there is no role for a student senate in the current structure. This led to the beginning of having conversations about a committee that would review the AS structure.

There is no current plan to set up a student senate for next year so the board will need to suspend it again because having a student senate is in our bylaws. The AS Structural Review Committee will look at the ASWWU structure and will make a recommendation that could include the ASWWU Student Senate.

Fiscal Impacts

There are no fiscal impacts and Budget Committee did not allocate AS Operating Funds for this position within the Representation and Engagement Programs Office.
