the WWU site: WWU.Texts.com

Background & Context

The CEO of Texts.com reached out to us to offer their service. Zach, Hannah, and Osman Olivera talked with a representative who ran us through a walkthrough of the website and answered our questions.

Summary of Proposal

Implement and sponsor the custom WWU.texts.com page as an AS sanctioned program.

Fiscal Impacts

None for the AS or students

Rationale

Texts.com provides a free textbook exchange website for students to buy and sell books directly to/from other students. Currently, students either try to advertise their books through a facebook page, or use the bookstore as the middle person.
