### Brief overview of what you would like to accomplish with a proposal?

We would like a couch to be placed in the upstairs staff work area of the Outdoor Center.

### What do you anticipate as the impact this project would have on your department?

A couch in the upstairs area would provide a comfortable space for staff and students to sit while they are in the upstairs area. Currently seating is limited to rolling desk chairs.

### What are other alternatives if your proposal is not accepted?

Unclear at this point.

### Estimated Cost and timeline (Determined by VU Facilities)

A new couch is approximately \$1200. We may have one extra couch available that may fit the OC's needs pending space.

### Selection Criteria

- Makes a positive impact on WWU students or AS Service Delivery
- Has a reasonable & realistic impact on service delivery
