The AS Central Demographics Menu

The following is a list of demographics for utilization by Associated Students of WWII offices, departments, and personnel in the creation of their respective assessment tools, evaluations, and surveys. These demographics can and should be included in measurements and externally-based assessments of student, campus, and community outreach; service provision and event/program facilitation; as well as internal employee/volunteer surveys and evaluations.

Users of this list may pick from this demographic menu when designing the aforementioned tools, but should adhere to the language used in it, especially in regards to identity information. Use of the entire list is not expected of administrative personnel who use it, but the selection of demographic terminology from the list below will help to streamline, centralize, and unify outreach, evaluation, and assessment practices within the Associated Students organization.
