AS Structure Review Committee

Likes and Dislikes of the Current Structure

April 2016

Likes:

- Splitting of administrative functions, services, and programming from advocacy and governance
- A senate-like body to provide accountability to the AS Board of Directors
- System for student leadership development
- Separate programming structure that functions more like a corporation

Mixed:

- More than one year terms (potentially better for programming and services)
- Population and departmental representation
- Uncertain of role/purpose of a judicial branch

Dislikes:

- Evergreen State College model
- Candidates running on one ticket
- Excessive emulation of the federal government model
- Individual appointments to positions
- Taxation without representation
