Budget Process Summary

In summary, the AS Budget Process:

1. Budget Authorities and Student Coordinators work together to submit a proposal- they refer to past actual spending, mandatory increases, and any areas where reductions are possible, while still maintaining current service levels.

2. Business Committee reviews for completeness (3 students and 2 staff advisors).

3. Budget Committee reviews budgets, asks questions and clarifications (6 students, 2 staff).

4. Budget Authorities and Student Coordinators revise budget to answer Budget Committee questions.

- 5. Budget Committee reviews changes and makes recommendations to the AS Board, any changes to budgets were emailed to Budget Authorities prior to step 6)
- 6. The AS Board has final approval of the Budget (7 students elected by students).

Budget Process

Introduction: The AS continues to develop and move towards a budget process that allows for a recommendation of the AS Budget to the Board for approval prior to the Services and Activities Fee proposal submission.

Philosophical Structure: Budget Authorities were informed of the significant budget constraints the AS faced this year primarily due to starting out with a deficit budget and significant mandatory wage increases. They were provided with four years of actual spending, as well as the allocation from last year. Authorities were asked as they created proposals to look for possible reductions based on past spending to assist the AS in balancing the budget. They were also asked to think about how the construction in the Viking Union might impact their budgets. Due to the budget constraints this year, decision packages were not entertained and increases were allowed only to maintain current services. Expansion of services requests were only allowed if they came as the result of a restructure or AS Assessment. Any currently funded AS Grants that ended, if assessed to show a need and desire to operationalize, were included in the operational budget requests with a detailed description in the justifications. The committee also hoped to ease the understanding of the budget and therefore updated the title of some budget areas to more accurately reflect their purpose, (e.g. Media Outreach now only contains KUGS budgets, renamed KUGS FM.)

Budget Committee Budget Priorities List: In past years, the Board of Directors provided a Budget Priorities List to the AS Budget Committee to provide direction in order to hold both parties more accountable on their decisions. No list was identified by the current Board.

Business Committee: The Business Committee looked over Budget Proposals for completeness. They asked Budget Authorities and Student Budget Coordinators questions to ensure that the budgets were understandable when presented to Budget Committee.

Budget Committee: This year the students on Budget Committee reviewed budgets in 13 hours of meeting time to make this recommendation. The students at-large did an excellent job looking over all of the budgets extensively and consistently. Budget Committee paid particular and consistent attention to areas where line item spending was unused in the last several years. They also looked at areas that might be impacted by construction in the VU and took this into account when reviewing budgets. When the Committee felt as if they needed additional information or justification, the secretary would email the Budget Authority asking questions based off the minutes. Budget Committee reviewed and made recommendations about operationalizing AS Grants that were ending.

AS Grants Recommended for Operationalization

Additional Diversity Conference Funding (ends FY'18)

Ongoing AS Grants

It is important to keep track of AS Grants in this Budget Allocation Report for accounting & updating purposes, no recommendations were made on these grants by Budget Committee as they have already been passed by the AS Board. AS Grants are approved by the Board and expended/held in "Pre-approved AS Grants" in the AS Reserves. The policy states that no more than \$50,000 should end in a fiscal year to minimize the impact of operationalization if necessary.

The AS Grants continuing in Fiscal Year 49 (2018-2019) are:

Outdoor Center Excursions Trip Leader Training (ends FY' 19)

Purpose: This is a pilot program to offer trainings for trip leaders to increase safety on excursions, to ensure that consistent information is known by trip leaders, and to lower financial barriers to these positions in hopes of increasing diversity of employees.

Challenges

AS Students Salaried to Hourly: Due to the creation of a WA State law granting paid sick time to employees, the university determined that in order to ensure students were getting their full benefit employees needed to move from Salaried to Hourly. The Assistant Attorney General decided that this excluded the AS Board of Directors due to their elected positions and their rate of pay. The AS transferred students to hourly beginning March 1, 2018. After the positions were transferred, there were meetings to decide how to budget for the positions. New budget proposal forms were released at the beginning of February with the hourly calculators updated.

Committee Membership: The committee struggled to find a meeting time that worked for all members. It additionally struggled with maintaining quorum. Also, the AS Rep was not chosen until right before the training meeting in February.

Employee Turnover: Delay in filling pro-staff positions who serve as Budget Authorities contributed to difficulty and tardiness in completing Budget Proposals.

Extensive attention to detail: Budget Committee looked at every line item in every Budget Proposal, which took up a lot of time. However, during Assessment last year, Budget Committee had a feedback session regarding the pros and cons of the process this year. The students at-large unanimously agreed that while looking at every line item may be tedious, working through the Budget Proposals line-by-line was the best way to review the AS Budgets.

S&A Fee Committee: The S & A Fee Committee operates under a different timeline than the AS for their budgets and had deadlines before the AS Budget process was completed. This posed a challenge for the AS student representatives because, while every other S & A Fee constituent group was presenting finished budgets, the AS was presenting a pro-forma budget which often had changes between meetings. Deliberation was therefore more difficult and other members urged the AS to bring final numbers when budget negotiations were taking place.

Conclusion

The recommendations being presented are a collaborative work that represents being fiscally responsible with student dollars. The funds being requested are a closely budgeted process that represents actual spending and actual revenue received in the past. The Budget Committee is proud to present this completed budget.
