Brenner Barclay, AS Senate President, Co-Chair  
John Farquhar, Director of ATUS, Co-Chair  
Date: May 13, 2022  
Subject: Student Tech Fee - 2022 Tech Initiatives Funding Recommendation

The Student Technology Fee (STF) Committee requests your approval of its funding recommendation (on page 2) for the 2022 Tech Initiatives proposals.

Assuming ASWWU Executive Board approval, the funding recommendation then will go to President Randhawa for final review and approval.

### **Tech Initiatives Process to Date**

The STF Committee reviewed 14 abstracts during winter quarter and 12 resulting proposals during spring quarter. The committee conducted site visits related to three proposals. One applicant withdrew a proposal from consideration because another source of funding was found. The committee also considered the Academic Technology Committee's recommendation for proposal funding and comments from the Western community.

After careful review and consideration, the STF Committee approved this recommendation on May 13, 2022.

The nine recommended Tech Initiatives projects and funding awards are listed below. This year's estimated fee allocation for Tech Initiatives is approximately \$193,000.

Assigned Numbers	Proposals	Awards*
1	Wireless Presentation and Collaborative Technology for the Classroom and Lab (CENV priority 1, full funding)	\$2,294
2	Counseling Training Clinic Telehealth Services (CHSS priority 1, full funding)	\$6,141
3	24-inch Epson P7000 Printer and iMac with AppleCare (Fairhaven priority 1, full funding plus \$200 for printer warranty)	\$6,085
4	Loan Pool DSLR Camera Upgrade (Non-College, ATUS; full funding)	\$29,894
5	4K Camcorder Upgrade Project (Non-College, ATUS; full funding)	\$19,255
6	Gain Imaging Capabilities on MALDI Mass Spectrometer (Non-College, SciTech; full funding)	\$45,347
9	CENV Spatial Analysis Lab - GPS Equipment [Student priority 1, partial funding of 20 GPS units]	\$11,174
10	Art Annex STEAM Center Expansion (Student priority 2, full funding) Funding contingent on progress toward fully implemented utilization tracking system.	\$40,407
12	Increasing Technology Access & Educational Equity: ENGD Makerspace Resource Scaling (Student priority 4, full funding except no Creative Cloud licenses) Funding contingent on fully implemented utilization tracking system.	\$27,559

**Total: \$188,156**

*\*Note: Award totals may change slightly after the projects' technical review phase.*

Thank you for considering this recommendation.
