- III. **PUBLIC FORUM** (*comments from students and the community*)
- IV. **INFORMATION ITEMS - Guests***

- a. AS Gaza Statement

Wong presented the AS Gaza Statement. Ryan says the goal of the statement is to have students feel supported. She adds that this statement is based on what students have faced at campus. Dizon wonders what student groups were contacted to help create the document. Wong says the AS VP for Diversity and the Communications Director were used as proxies and that they didn't want to impose on students who haven't felt safe with Western employees and give them work. Thompson wondered what actions have been taken to support students. Wong says resources are going to be listed and the Communications Office is going to work on building connections to the students. Lamas shared a flier with the Senate about the Sociology department hosting a space to talk about what's going on in Gaza. Moreno wonders when and how the statement will be released. Wong says the Communications Office will most likely release a mass email to the student body.
